Front end: JavaScript, React, Redux, React Router, Vite, HTML, CSS
Back end: Node.js, Express, REST APIs, authentication with bcrypt
Databases: MongoDB, Mongoose, PostgreSQL, Supabase, row-level security
Tools: Git, GitHub, GitHub Actions, Lighthouse, Selenium IDE, Microsoft Excel

PROJECTS

CodeBloggs Team project, CodeBoxx
React, Redux, Node.js, Express, MongoDB, Mongoose, bcrypt

- Helped build a social blogging platform for developers where members register, write posts, comment, like, and browse the network.
- Worked in a team through clear tasks, feature branches, and code reviews.
- Audited the Login and Home pages with Lighthouse, refactored them based on the findings, and added Selenium IDE tests.

Personal Portfolio driss0624.github.io
React, Vite, React Router, Supabase, GitHub Actions

- Built and deployed a responsive portfolio site presenting skills, experience, and projects to employers.
- Stored contact form messages in Supabase, protected by row-level security.
- Created a hidden admin area with sign-in where messages can be read and deleted.
- Automated builds and deployment to GitHub Pages with GitHub Actions.
